

Technical Data Sheet

Indu-Tek Valve Lubricant GRS6

Fully Synthetic Grease Compound specifically developed for the Lubricating & Sealing of Gate Valves

Valve Lubricant GRS6 is a fully synthetic lubricating compound that delivers excellent performance in sealing & lubricating Valves used in the Oils & Gas Industry. It is specifically formulated to provide optimum resistance to aggressive hydrocarbons, liquids, gases & process chemicals.

Valve Lubricant GRS6 is proven to provide long term protection, excellent sealing properties, protecting Valves from aggressive materials therefore extended repair intervals and reducing downtime & costs.

Features and Benefits: -

- Seals & Protects against aggressive Chemicals & Hydrocarbons etc.
- Good Operating temp range -20°F - 350°F
- Seals even at High Oil/ Gas Well Pressure
- Improves reliability of Valves
- Elongates life of components
- Long-Life application – extends relubrication periods

Packaging: -

Valve Lubricant GRS6 is available in 18kg, 50kg and 180kg drums.

Part Number: ML-81005
