GRS6 Cleaner

Low hazard Degreaser, Cleaner & Flushing Agent for Valves used in the Oil & Gas Industry

GRS6 Cleaner was specifically developed to remove, clean & flush Hydrocarbon Resistant Greases & Oils like Valve Lubricant GRS6.

Due to the nature of Valve Lubricant GRS6 it is naturally difficult to remove with common cleaning solvents during Service & Maintenance.

GRS6 Cleaner is a fast acting Environmentally Responsible Cleaner/ Degreaser. It is a synergistic blend of Bio-Degradable Oxygenated Solvents with a low odour and slow evaporation rate.

Features & Benefits

- Highly effective on many contaminants
- Does not contain Hydrocarbon Solvents
- Does not contain Aromatic, Fluorinated, or Chlorinated Solvents
- Mild odour
- Has excellent degreasing, cleaning & flushing properties
- Fast acting & Cost effective
- Bio-Degradable

Uses

- Cleaning and degreasing of Valves during Maintenance & Repair
- Effective as a Flushing Agent during In-Situ Maintenance
- Cleaning Tools & Equipment
- Degreasing of Metal Components, Bearings, Threads, Couplings etc.
- Effective for many other types of Cold Cleaning Applications including Oil, Grease, Printing Ink, Thermal Transfer Pigment, Wet Paint and many uncured Adhesives, Glues & Sealants.

METHOD OF APPLICATION

GRS6 Cleaner should be always be used neat and not mixed with water.

Spray, brush or swab onto surface to be cleaned, agitate and leave for a short time to penetrate. Wipe with a clean cloth to remove Grease, Oil & Contaminated Solvent.

Components can be cleaned with water or detergent after being subject to GRS6 Cleaner.

Part Number: ML-76112

Pack Sizes: Available in 25 litre, 200 litre drums
