

Performance you can trust

METALGUARD Corrosion Preventative

METALGUARD is a fast drying, moisture displacing rust preventative that deposits a light corrosion preventative film suitable for the temporary indoor protection of components such as bearings, gears, pressings and any machined metal product which requires protection from corrosive attack - whether in storage, transit or between operations.

Features

- Effective indoor corrosion protection.
- Displaces moisture.
- Very light oil film – easily removed.
- Does not contain silicone or chlorinated solvents.

Directions for Use

Apply by brush, dipping or spraying.

N.B. Test compatibility with painted or coated surfaces, plastics and rubbers if the product is liable to come into contact with these materials.
